FELLOW CITIZENS :—At your last annual meeting you authorized the purchase of Waverley hall, and the remodeling of the building, and the enlargement of the grounds, to accommodate the increasing number of scholars in division 1, and the purchase of a desirable lot and the building of a new house for division 2. The repairs and necessary changes were made in the hall building. We now have three ample, well lighted and ventilated apartments for the several schools, and a hall for singing-schools or general exercises. Improved single seats and desks were furnished for the senior department, and additional windows were placed in all of the rooms. The desired enlargement of the grounds were not acquired.

For division 2 a desirable lot was secured and a new building erected to accommodate two grades. The heating apparatus is not sufficient. Some change should be made before another winter.

Your attention is called to the condition of the houses for divisions 4 and 5. Neither are suitable. At no distant day they should be replaced by more healthful structures. Large, well ventilated, well heated rooms, substantial rather than ornamental, will meet the demand of these divisions.

A glance at the history of your school-houses shows that for

many years each generation has been called upon to repair, remodel or rebuild these structures. This is a reason for erecting plain buildings, using the extra money for apparatus for the use of the scholars, or for teaching vocal music, which is much neglected in most of our schools.

Your schools for the three years past, have gradually increased in usefulness, and a growing interest has been exhibited by some parents and citizens. There is still a great neglect of duty in this direction. A small per cent. of those who ought to be conversant with the working of your schools ever visit them. Why is this? A base ball club or a negro minstrelsy, even in unpleasant weather, will have large numbers in attendance. But the school-room, and school examination, where your children are forming bodies, minds and characters which are to ensure their, and perhaps your happiness and usefulness, you avoid. Of the management you hear one part of the evidence, and too often form your conclusions from this, censuring or perhaps encouraging without knowing the right. Let there be a radical change in these things.

Our registers show a large amount of time and money wasted by tardiness and absence. You must not expect your teachers to hold a whole class back for your child, whom you have on some trifling pretext, allowed to remain at home, or to attend some passing show, thus losing one link in all its lessons. Those of you who work in our shops understand the effect upon your purse if you are out one or two days each week.

Thanking all those who have in any way aided us in trying to elevate the standard of our common schools, and hoping that hereafter you will lend a more helpful hand and presence, we submit this report.

MORRIS CHRISTIE, } *School Board.*
ANSON SWETT, }

Antrim, N. H., March 1, 1889.
